DETAILED ACTION

Response to Amendment

1. This office action is in response to the amendments received on 12/22/2006.

Allowable Subject Matter

2. Claims 1-9 allowed. The following is an examiner's statement of reasons for allowance:

A comprehensive search of prior art of record failed to teach, either alone or in combination, an apparatus comprising; a clock synthesizer for outputting a plurality of sampling clocks, a timing thereof being adjusted by receiving an external clock synchronized with the external data signal; an over-sampler for over-sampling a first equalized external data signal and a second equalized external data signal in synchronization with the sampling clocks; a multiplexer for multiplexing the outputs of the over-sampler in response to preceding outputs of the multiplexer, which serve as select signals for the multiplexer, to thereby attain multiplexer decision results; and a phase detector for deciding the timing of the sampling clocks by analyzing the multiplexer decision results.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
